

Connecting GovMail to Android

There are two ways of connecting GovMail to your Android smartphone: Email application connecting through IMAP and SMTP and using different kinds of internet browser

Add account and then enter GovMail email address and password and then click next

Account setup

You can set up email for most accounts in just a few steps.

robin.padilla@icto.dost.gov.ph

.....

Manual setup Next

Account setup

Then choose IMAP

What type of account is this?

POP3

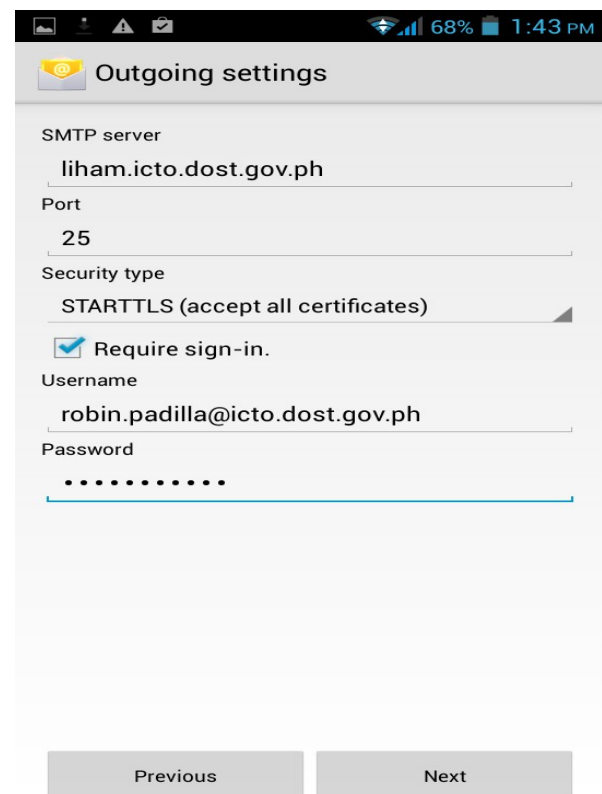

IMAP

Exchange

After click IMAP, enter liham.icto.dost.gov.ph as IMAP Server and 143 as Port. Security type as STARTTLS (accept all certificates).

liham.icto.dost.gov.ph as SMTP server, 25 as Port and STARTTLS (accept all certificates) as Security type.

Then choose your own settings. And your good to go.

Account settings

Inbox checking frequency
Every 15 minutes

- Send email from this account by default.
- Notify me when email arrives.
- Sync email from this account.
- Automatically download attachments when connected to Wi-Fi
